CERTIFICATIONS

Global Career Accelerator: Data Analysis, Data Visualization, AI Professional

Aug 2025

Palantir: Foundry & API Builder

Dec 2025

WORK EXPERIENCE

Data Analytics Intern

Ladders Unlimited and Supply

May - Aug 2025

Cincinnati, OH

- Designed Python + ODBC + Supabase pipeline replacing manual reporting; built R Shiny dashboard enabling leadership to self-serve analytics for the first time
- Delivered prescriptive analytics reports informing inventory and sales strategy; evaluated Airbyte, Databricks, and Snowflake for future architecture

Foreclosure and Mortgage Intern

Sandhu Law Firm

May - Aug 2024

Cleveland, OH

- Managed legal documents and digital mail; monitored foreclosure inbox and collaborated with legal staff on active cases

Sales Associate

General Nutrition Company (GNC)

Oct 2024 - Present

Cincinnati, OH

- Advised customers on health and fitness goals; managed inventory and executed targeted promotions

PROJECTS

Baseball Analytics AI Agent (Dify)

Sept 2026

- Built an AI agent in Dify, containerized with Docker, that answers MLB-related queries by scraping user-provided URLs or the most relevant Wikipedia page for structured team, player, and standings data
- Orchestrates a multi-step workflow that organizes extracted data into tables, generates charts to visualize key trends, and produces a written summary of key insights

2026 Fantasy Football Draft Tool

2025-2026

- Full R Shiny application with PPR projections, ADP value modeling, 2026 rookie class analysis, and live ESPN injury data via API — deployed on shinyapps.io
- Features tier charts, draft board with sortable/filterable table, player lookup, and value score rankings across 100+ players

Stock Projector Application

2025

- Standalone HTML app integrating Alpha Vantage & Finnhub APIs with live news sentiment analysis, RSI/SMA technical indicators, and multi-horizon price projections

Baseball Statistics Analyzer

2025

- Python CLI pulling live MLB data via the MLB Stats API to surface player stats, standings, schedules, and league leaders; built a pytest suite with mocked API responses for full offline test coverage

TECHNICAL SKILLS

Languages & Tools: Python, R, SQL, Rust, JavaScript, Excel, Access, SAS

Platforms: Tableau, Databricks, Palantir Foundry, Supabase, Airbyte, Snowflake, Dify, Docker

Dev Environment: VS Code, Git, R Shiny, Streamlit, REST APIs, ODBC

INVOLVEMENT

Sigma Chi Fraternity

University of Cincinnati

Oct 2022 - Present

Cincinnati, OH

- Derby Days fundraising for Huntsman Cancer Research Foundation; Inner City Youth Opportunities mentorship program
